# DISCLAIMER

CFDs are complex instruments and have a high risk of losing money quickly due to the leverage. 64% of retail investor accounts lose money when trading CFDs with this provider. You need to ask yourself if you understand how CFDs work and if you can afford to take the high risk of losing your money.

This presentation and the services it refers to are not investment advice and should not be construed as such.

## WHO ARE WE ?

AUTOFX, THE BROKER THAT CONNECTS TRADERS AND INVESTORS

AutoFX specializes in the automation of various trading strategies, and therefore allows investors to place their funds in the hands of a professional, if they do not wish to invest themselves in the financial markets.

Based in St. Vincent and the Grenadines, AutoFX is able to answer your questions thanks to their English and French speaking teams who provide quality customer service worldwide.

AUTOFX

## 2 | WHY AUTOFX BROKER ?

Today most retail traders lose money on Forex or CFDs due to poor risk management. Only about 20% of them are profitable in the long run. Of these 20%, some know how to manage their RR (Risk Ratio) and others prefer to leave their money in the hands of profitable traders who copy their strategy.

AutoFX's ambition is to offer its users access to the strategies of our best managers and to allow our investors to invest their money while limiting the risks.

This is why AutoFX verifies and approves each of its managers before offering you the opportunity to invest in them.

AUTOFX

### 3 | COMPETITIVE SPREADS AND TURNAROUND TIME MINIMAL

By eliminating all unnecessary commissions and applying the lowest spreads, AutoFX offers its managers and investors the opportunity to trade and invest in the markets with the same advantages as professionals in the trading room.

We guarantee optimal comfort for your trading environment.

Your AutoFX account linked to our dedicated Equinix fiber network ensures the best execution speed.

We guarantee you access to the real depth of the market without any reinterpretation of prices.

## 6 | AUTOFX BROKER SERVICES

### AUTOFX MANAGERS

With **AutoFX Managers** choose to invest your funds on a manager (trader or algorithm) validated by AutoFX.

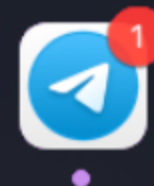

Our managers :

*To do this you need to have an active investment account with AutoFX Broker.*

### AUTOFX SIGNALS

With **AutoFX Signals** copy and paste the signals sent on the free Telegram channel offered to AutoFX members.

Our team has put together a guide for you to use the signals. You will find several important information to start in the right conditions as well as a typical money management.

*To take advantage of the signals you need to have an active trading account with AutoFX Broker.*

# 7 | THE MANAGEMENT RECRUITMENT PROCESS

## STEP 1 | Our experts analyze the strategy's history

Our teams study a minimum of 2 years of track record provided by the strategy's manager (note that for algorithmic strategies, backtests are not reliable). They base themselves on several important indicators to determine the risk level of the strategy in order to give it a score out of 5. Only scores greater than or equal to 4/5 are retained for step 2.

## STEP 2 | We draw up the strategy's data sheet with the manager

Our team establishes the strategy data sheet with the manager. This includes :

- Type of trading (intraday/scalp/swing)
- Traded asset
- Biggest loss ever
- Estimated average profitability (per month)
- Profit sharing
- Our experts' rating (greater than or equal to 4/5)

The point "biggest loss ever" is very important:

- If the manager exceeds it in step 3 and/or 4 his strategy will not be published.
- If he exceeds it once the strategy is published, his account will be deleted and the strategy revoked.

## STEP 3 | Test the strategy on a demo account

The manager opens a demo account at AutoFX Broker and tests his strategy for a period of 2 months.

If the results are consistent, the risk management is under control, and the strategy is the same as the one studied by our teams on the track records, then the manager can go to step 4.

## STEP 4 | Beta test open to investors

Once step 3 is validated, our teams can create the strategy.

However, it will not be public for the moment. The beta-testing period is open and the most daring investors will be able to test the strategy beforehand.

However, the account is blocked at \$100,000 deposit, in order to limit losses in case of possible bugs/inconsistencies not detected in the demo test phase.

The beta-testing period lasts 2 months and the strategy is published or not following the feedback from beta-testers.

# 8 | REDISTRIBUTION OF COMMISSIONS AND PROFIT SHARING

## AFFILIATION & BROKER : COMMISSIONS TAKEN BY LOTS

**7.50\$** On each trade a commission of \$7.50 is charged per lot invested.

=

**4.50\$** **Affiliate program**  
On these 7.50\$, 4.50\$ are put back into the affiliate program following the compensation plan (next slide)

+

**3.00\$** **Broker's remuneration**

## STRATEGY MANAGERS: PROFIT SHARING

Each strategy manager chooses a profit share of 0 to 15%. This is his only remuneration, a strategy manager cannot profit from the affiliate program. It is therefore in his interest to be profitable, otherwise he will not be paid.

### EXAMPLE

This month you have won :

**+** **100\$**

The manager takes 15% profit share

**-** **15\$**

So you've won:

**=** **85\$**

More than an affiliate program, AutoFX offers you a true source of passive income (optional).

Through our unique affiliate program, any AutoFX user can become an ambassador and recommend their favorite strategies to their social circles, friends, family, etc.
